Mille üle oma kultuuris oled uhke?

- ▶ Koht
- ▶ Inimene
- ▶ Sündmus

Projekti eesmärgid

- ▶ Arendada erinevate kooliastmete õpetajate ja nende õpilaste hulgas multikultuursuse, mitmekeelsuse mõistmist ja sellega seotud pädevusi
- ▶ Julgustada õpetajaid looma kvaliteetseid aineüleseid õppematerjale inglise, prantsuse ja hispaania keeles (L2) erinevatele kooliastmetele
- ▶ Motiveerida õpetajaid laiendama keeleõppe piire ja leidma uusi võimalusi keelte omandamiseks
- ▶ Avaldada ConBaT+ projektiliikmete poolt loodud õppematerjalid (töölehed, tagasisidelehed), mille loomisel on LAK-õppe metoodilisi võtteid rikastatud klassiruumis kohtuvate erinevate keelte ja kultuuridega

Materjalide loomisel peeti silmas 4C-põhimõtet:

- ▶ content
- ▶ communication
- ▶ cognition
- ▶ culture

(Coyle, 2007)

ConBaT+ kaasatud õppeained

- ▶ Kirjandus, ajalugu, kunst, maateadus, matemaatika, bioloogia jne

- ▶ Bioloogiaga seotud materjalid:
Yoghurt
Parasites

Science

Example 1

- ▶ *Language skills (vocabulary) and multilingual approach*

The language used by scientists differs a lot from the everyday language we speak. What's the difference? Scientific language means exact description of the subject according to its scientific meaning. For instance: hand – forelimb; go – move on the back limbs, water – substance, which consists of H and O etc...

Explanation using scientific language

Eye
Space
Light
Wing

Science

Example 2

- ▶ *Learning strategy (organising information) together with content of one subject and social interaction.*

Use the Internet and find a scientist from every continent. Make a short presentation (3 minutes) about their contribution to science. In the next lesson, exchange information with another student.

READING

- ▶ Skim the text and try to find original words to the definitions below referring to.

Charles Darwin

Tierra del Fuego 1834 March 4th

Came to an anchor in the Northern part of Ponsonby sound. We here enjoyed three very *interesante* days: the weather has been fine & the views magnificent. The *bergen*, which we passed today, on the Northern *Küste* of the Channel are about 3000 feet high, — they terminate in very broken & sharp peaks; & many of them rise in one abrupt rise from the waters edge to the above elevation. The lower 14 or 1500 feet is covered with a dense *mets*.

- ▶ A large landform that stretches above the surrounding land in a limited area usually in the form of a peak: _____
 - ▶ An area with a high density of trees: _____
 - ▶ It identifies a *specific* unique and identifiable individual person: _____
